

Zywave Learning

within the Client Cloud

Zywave Learning™ makes it easier than ever for you to provide the training courses your clients and their employees need in an easy-to-use learning management system (LMS).

Provide Additional Value

75% of employers say it's important that their broker offer an online LMS for employee education and safety. Fill this need by offering your clients access to Zywave Learning.

Reduce Training Costs

Training costs can add up quickly. On average, companies spend nearly \$1,000 per employee per year on training. Provide your clients access to Zywave Learning, a cost-effective LMS.

Keep Clients Safe

Help your clients promote a safe and compliant work environment by offering them the courses they need through Zywave Learning.

The screenshot displays the Zywave Learning LMS interface. On the left is a navigation menu with options: Home, Employee management, Group management, Imports, Course catalog, Settings, and Help. The main content area is titled 'Zywave Learning Demo' and features two primary cards: 'My training' with a 'Take training' button and 'Run a report' with a 'Download report' button. Below these is a 'Manage employees' section. On the right, a 'Learning Dashboard' is visible, showing a 'CERTIFICATIONS' count of 5 and a 'DAILY ACTIVITY' calendar. At the bottom, there is a search bar with the text 'What are you looking for?' and a list of course entries, each with a 'Continue' button.
